Totals/Averages	591	439	74.3%	91.8%	\$4,175	\$41,174	\$23,724	\$21,788

* The admitted classes of 2005 and 2007 are those students who applied for and received admission to Williams in the spring of 2001 and 2003, respectively. Those students that chose to enroll at Williams would have become members of the graduating classes of 2005 and 2007.

† Maximum award may exceed tuition for that class year due to travel, book, and personal expense allowances.

‡ Table reflects averages by income level only, including nontaxable income. The size of an award is also affected by family size, number in college, family assets, and other considerations. Those eligible at higher income levels usually have more than one child in college.
