

The Campus Safety and Security Department provides the following information to keep the College community informed about bias-motivated incidents that have occurred on campus and have been reported directly to the department. These incidents are not categorized into one of the hate crime criminal offenses (murder, manslaughter, robbery, aggravated assault, burglary, arson, forcible & non-forcible sex offenses, motor vehicle theft) in which the victim is intentionally selected because of actual or perceived race, gender, religion, sexual orientation, ethnicity or disability.

Bias-motivated incidents include cases of written or verbal harassment, intolerance, intimidation, destruction, damage or vandalism of property, graffiti or hate speech. In addition, miscellaneous incidents of graffiti/tagging are listed that do not appear to target any specific person or group.

Campus Safety and Security encourages members of the College community to report any bias-motivated incident or hate crime. Timely response to these incidents is crucial. Failure to report allows these incidents to remain hidden and may even allow them to escalate. The College takes all reports seriously and will thoroughly investigate every incident and work with the local police whenever necessary.
